FUSIONS

Assistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

**APPROVED**  
[Signature] 2002  
FOR THE DIRECTOR OF USPTO

Pursuant to 37 CFR § 1.322, Applicants submit a Certificate of Correction correcting an error made at the time of printing of the patent. The desired correction is set forth on form PTO-1050 enclosed.

The error for which correction is requested is the deletion of the word "heavy" in the last line (col. 100, line 42) of issued claim 12, and the insertion of the word "light" therefore. Issued claim 12 was claim 39 during prosecution.

The error is readily apparent from the prosecution history. In the Examiner's amendment accompanying the Notice of Allowability (Paper No. 12), the Examiner indicated that claim 39 would be amended at line 5 to replace "light" with "heavy." This amendment was intended to change the phrase "joined to an immunoglobulin *light* chain constant region; and an immunoglobulin light chain" to the phrase "joined to an immunoglobulin *heavy* chain constant region; and an immunoglobulin light chain" (emphasis added). (See Paper No. 7, Amendment filed March 29, 1999, page 3, for line numbering.) In claim 12 of the issued patent, both instances of the word "light" were changed to "heavy." Claim 12 should read,

ANDRZEJ Z. SLEDZIEWSKI et al.  
Patent No.: 6,018,026  
Page 2

PATENT

*inter alia*, "joined to an immunoglobulin *heavy* chain constant region; and an immunoglobulin *light* chain" (emphasis added). Correction of this error is respectfully requested.

This error is not due to the fault of Applicants. Please charge (or credit) any fees associated with this request to the firm's Deposit Account No. 20-1430.

Respectfully submitted,

Dated: 3/25/02
